Copperbelt Province is a province in Zambia which covers the mineral-rich Copperbelt, and farming and bush areas to the south. It was the backbone of the Northern Rhodesian economy during British colonial rule and fuelled the hopes of the immediate post-independence period, but its economic importance was severely damaged by a crash in global copper prices in 1973.

Four big mines dominate Zambia's copper production, complemented by several smaller players who also play an important role. All the mines are backed by a wide range of respected international investors. The Zambian government, through its investment-holding company ZCCM-IH, is a minority shareholder in nearly all of them - and is, in effect, the biggest shareholder in Zambia's mining ...
