Automotive Service Technology is an 1800-hour, 22 month program. The first course, Automotive Service Assistor, is considered the "core". It begins in the classroom with a focus on equipment and safety regulations, and it introduces the employability and applied academic skills that are incorporated throughout all courses in the program.

A power inverter, or inverter, is an electronic device or circuitry that changes direct current (DC) to alternating current (AC).. The input voltage, output voltage and frequency, and overall power handling depend on the design of the specific device or circuitry. The inverter does not produce any power; the power is provided by the DC source. A power inverter can be entirely electronic or may ...
