It is a liquid tissue that carries nutrients and oxygen to all your body's cells and also fights off disease-causing germs. Blood has four main parts: plasma, red cells, white cells, and platelets. This circulatory system theme unit provides a variety of materials to help students learn about their amazing circulatory system.

Free Circulatory System Worksheets | edHelper.com

Circulatory System. Your heart pumps blood to every nook and cranny in your body. The average heart beats approximately 72 times each minute. It weighs nine to eleven ounces in females and just an ounce or two more in males. In your lifetime, your heart will beat approximately 2.5 billion times. Many children are aware of their heart.

Eighth Grade (Grade 8) Circulatory and Immune Systems ...

The Circulatory System - The circulatory system is one of several systems of the human body that work together to keep a person healthy. The body takes oxygen into the lungs when a person breathes. This oxygen is then transported throughout the body into all of the cells of the body by the circulatory system. The main function of the >circulatory system is to carry blood throughout our bodies.

The Circulatory System Reading Comprehension

Grade 6: The Heart & Circulatory System - Revised 2008 Page 4 The Circulatory System and Blood Our Circulatory System is the body's delivery system, transporting blood throughout the body. Our blood is the holding and transport vessel for nutrients, oxygen, antibodies and hormones as well as the removal mechanism for waste material.
