

Evaluation Strategies For Teachers

Evaluation Strategies For Teachers

Research has shown that online reading requires not only traditional comprehension strategies, but also new digital- and media-literacy strategies. In this lesson, students learn how to use these comprehension strategies involving a sequence of planning, predicting, monitoring, and evaluating. Once students learn the strategies, they read a variety of hoax websites and evaluate the content.

Training Workshops for Teachers - Educator Evaluation

States, districts, and schools all across the United States are busy developing or implementing teacher evaluation systems. One can trace this flurry of activity to a variety of reports and initiatives that highlight two failings of past efforts: (1) Teacher evaluation systems have not accurately measured teacher quality because they've failed to do a good job of discriminating between ...

The Inquiry Chart (I-chart) is a strategy that enables students to gather information about a topic from several sources. Teachers design the I-chart around several questions about a topic. Students read or listen to several sources on the topic and record answers to the posed questions within the I-chart. Students generate a summary in the final row.
