### **Facial Problems And Solutions**

Bell's palsy is the most common type of facial nerve paralysis. In Bell's palsy, the affected nerve becomes inflamed due to injury or damage. Most researchers think that it is caused by infections like the common cold virus or meningitis. Symptoms of Bell's palsy range from mild facial weakness to total paralysis of the affected area. Some people refer to the condition as

Forensic facial reconstruction (or forensic facial approximation) is the process of recreating the face of an individual (whose identity is often not known) from their skeletal remains through an amalgamation of artistry, anthropology, osteology, and anatomy. It is easily the most subjective—as well as one of the most controversial—techniques in the field of forensic anthropology.
