Financial Markets | Coursera

In the developing world, 2.5 billion adults don't have a bank account and 200 million businesses lack access to credit. IFC works through financial institutions to provide much-needed access to finance for millions of individuals and micro, small, and medium enterprises that we would never be able to reach directly.

Overview - International Finance Corporation

IFC believes that sound, inclusive, and sustainable financial markets are essential to building shared prosperity and eradicating poverty. They ensure efficient resource allocation, create jobs, spur economic growth and play a critical role in private sector development.

Financial Institutions Group - ifc.org

The Department of Finance Canada deals with issues affecting federal financial institutions and pension plans, and develops the regulations that govern the institutions so they remain safe and sound and are responsive to consumers' needs.

Financial Institutions and Markets - Minister of Finance

A financial market is a market in which people trade financial securities and derivatives such as futures and options at low transaction costs. Securities include stocks and bonds, and precious metals.. The term "market" is sometimes used for what are more strictly exchanges, organizations that facilitate the trade in financial securities, e.g., a stock exchange or commodity exchange.
