Hello there! I am finally ready to share with you the much anticipated DIY concrete fireplace tutorial. By way of background, in case you have not already read about it in the post about our family room renovation, let me explain the reason behind this transformation. We felt like the stone fireplace was a very "traditional" look that felt out of place to us in our very contemporary home.

### **DIY Concrete Fireplace For Less than \$100 ...**

Quickly calculate concrete slab and footing pours by entering the depth, width and length to find the number of cubic yards or bags of concrete needed for your project. Give these calculations to your ready-mix supplier or use them to estimate how many 40, 60 or 80 lb. bags of concrete to buy.

### **Concrete Calculator - How Much Concrete Do You Need?**
