Grace Under Pressure is the tenth studio album by Canadian rock band Rush, released in April 1984 on Anthem Records. After touring for the band's previous album, Signals (1982), had come to an end in mid-1983, Rush started work on a follow-up in August. The band had decided to not work with its longtime producer Terry Brown, who had worked with Rush since 1975.

### **Grace Under Pressure (Rush album) - Wikipedia**

In thermodynamics, work performed by a system is energy transferred by the system to its surroundings, due solely to macroscopic forces exerted by the system on its surroundings, where those forces, and their external effects, can be measured. Such work is the only kind by which a thermodynamic system can be made to lift a weight. The externally measured forces and external effects may be ...
