Volume 14, No. 1, Art. 25 – January 2013 . Theory Building in Qualitative Research: Reconsidering the Problem of Induction . Pedro F. Bendassolli. Abstract: The problem of induction refers to the difficulties involved in the process of justifying experience-based scientific conclusions. More specifically, inductive reasoning assumes a leap from singular observational statements to general ...

Alternative work arrangements continue to increase in number and variety. We review the literature on alternative work arrangements published since the most recent major review of nonstandard work by Ashford et al. (2007). We look across the research findings to identify three dimensions of flexibility that undergird alternative work arrangements: (a) flexibility in the employment relationship ...
