

Killer E2200 Gaming Networking

Killer E2200 Gaming Networking

The Killer NIC (Network Interface Card), from Killer Gaming, is designed to circumvent the Microsoft Windows TCP/IP stack, and handle processing on the card via a dedicated network processor. Most standard network cards are host based, and make use of the primary CPU. The manufacturer claims that the Killer NIC is capable of reducing network latency and lag.

Killer NIC - Wikipedia

ASRock Super Alloy - XXL Aluminum Alloy Heatsink - Premium Alloy Choke (Reduces 70% core loss compared to iron powder choke) - NexFET™ MOSFET - Nichicon 12K Platinum Caps (100% Japan made high quality conductive polymer capacitors)

ASRock > Fatal1ty Z97 Killer

Your specs are brilliant but since this is a gaming PC, you don't really need an i7 processor. I do have one in my system but that because I do a lots of video editing and photoshop.
