0 c No Straight Lines: participatory reading. We now have an open access participatory reading platform for No Straight Lines So here is an open invitation to swing by and have a look at No Straight Lines:Â It looks at how we can build better more sustainable societies, organisations and vibrant economies through innovative practice.

Smart Mobs

Cyborg Unplug is a wireless anti-surveillance system for the home, hotel and business. Cyborg Unplug detects and interrupts the network functionality of selected devices that pose a risk to personal privacy. Devices detected currently include: Google Glass, Dropcam, popular drones/quadcopters, wireless microphones and other network-dependent surveillance devices.

Cyborg Unplug

Global surveillance refers to the mass surveillance of entire populations across national borders. Its roots can be traced back to the middle of the 20th century when the UKUSA Agreement was jointly enacted by the United Kingdom and the United States, which later expanded to Canada, Australia, and New Zealand to create the present Five Eyes alliance. The alliance developed cooperation ...
