One lucky family of four will embark on a spectacular ship-based adventure, just like the students at Explorer Academy. Experience the remarkable beauty of Alaska's famed Inside Passage on this thrilling 8-day voyage, courtesy of National Geographic Expeditions. Get up close to icebergs and calving glaciers. See orcas and humpback whales, then listen to them with the ship's hydrophone.

Happy New Year! Today, January 21, 2019, marks our 23rd anniversary on the internet and, as usual, our Anniversary Update is a huge one! Today's update leads off with the publication of a rare Shroud report by the late Dr. Eugenia Nitowski and the completion of the 118 issue archive of Rex Morgan's Shroud News. This update is also very international in nature, as it marks the beginning of our ...

Death Valley National Park is an American national park that straddles the California—Nevada border, east of the Sierra Nevada. The park boundaries include Death Valley, the northern section of Panamint Valley, the southern section of Eureka Valley, and most of Saline Valley. The park occupies an interface zone between the arid Great Basin and Mojave deserts, protecting the northwest corner of ...

Discovery. El Mirador was first discovered in 1926, and was photographed from the air in 1930, but the remote site deep in the jungle had little attention paid to it until Ian Graham spent some time there making the first map of the area in 1962. A detailed investigation was begun in 1978 with an archaeological project under the direction of Bruce Dahlin (The Catholic University of America ...

Yellowstone National Park is a national park in the United States. It was the world's first national park. United States President Ulysses S. Grant signed a law to create it. The name was taken from the Yellowstone River, which flows through the park. Yellowstone was made a UNESCO World Heritage Site in 1978. Yellowstone National Park is famous for its geysers and hot springs.
