Edit a business process flow. To edit business process flows, open solution explorer, select Processes, and then select the Business Process Flow from the list of processes that you want to edit.. When you select the name of the business process flow you want to edit from the list of processes, it opens in the designer, where you can make any updates you want.

Create a business process flow in PowerApps - Microsoft ...

Business Process Management (BPM) is, in a nutshell, the way your company manages and improves business processes. This can mean making all sorts of changes to how the process works. You could, for example, restructure it (remove a step, add a step, etc.) or completely re-engineer it using new technology (automating just about anything).
