Ratio/Proportion Word Problems Relating Two Things Together: a Rate. It takes 2 minutes to print out 3 color photos on Erin's printer. Write an equation relating the number of color photos  $(p)$  to the number of minutes  $(m)$ .

### Algebra Word Problems - She Loves Math

There are several ways to approach this problem. Most students feel that the easiest way is to set up a ratio with the first piece of information given in the problem. In this problem, the ratio would be  $\frac{48}{20}$ . According to the problem, it takes 48 chicken fingers for 20 students which can be expressed as the ratio. Now we need to set up the second ratio for the larger group of students keeping in ...
