Principles And Practices Of Winemaking

In 1825, Pierre Faiveley founded the firm that now bears the name Domaine Faiveley. At that time, the firm was a classic négociant, buying and selling wine. But from generation to generation, with a strong commitment to the quality of Burgundy's patrimony, the Faiveley family has purchased vineyards

Biodynamic agriculture is a form of alternative agriculture very similar to organic farming, but it includes various esoteric concepts drawn from the ideas of Rudolf Steiner (1861-1925). Initially developed in 1924, it was the first of the organic agriculture movements. It treats soil fertility, plant growth, and livestock care as ecologically interrelated tasks, emphasizing spiritual and ...

Ancient Rome played a pivotal role in the history of wine. The earliest influences on the viticulture of the Italian peninsula can be traced to ancient Greeks and the Etruscans. The rise of the Roman Empire saw both technological advances in and burgeoning awareness of winemaking, which spread to all parts of the empire. Rome's influence has had a profound effect on the histories of today's ...

8.1.4 Competitive inhibition. A conceptually appealing process (actually a hurdle) is the inclusion of benign microorganisms into a food. These microbes, designed to grow well under conditions of storage abuse including temperature, oxygen level, pH, water activity, etc., will dominate spoilage and readily signal their presence thus harmlessly causing rejection of the spoiled item.
