Skip Counting By 100s - Printable Worksheets

The ability to partition numbers (explode them into units, tens, hundreds etc) is essential and is typically introduced in Years 2/3 with the concept of place value. An understanding of number partitioning is vital for all subsequently taught methods of calculation. After understanding two digit partitioning, children need to understand that three digit numbers are made up of hundreds, tens ...

Money Math Worksheets, Problems, Lesson Plans

Total up the columns and write the totals in the row at the bottom of the grid. Then finally add together those totals for the final answer. Here $54 \times 12 = 540 + 108 = 648$. The Grid Method can be used to multiply very large numbers using a larger grid, but by the time a child is confident multiplying 3- and 4- digit numbers using grid multiplication, they are ready for long multiplication ...
