Science in a broad sense existed before the modern era and in many historical civilizations. Modern science is distinct in its approach and successful in its results, so it now defines what science is in the strictest sense of the term. Science in its original sense was a word for a type of knowledge,

rather than a specialized word for the pursuit of such knowledge. In particular, it was the ...

A cubic lattice is a lattice whose points lie at positions (x,y,z) in the Cartesian three-space, where x , y , and z are integers. The term is also used to refer to a regular arrangement of spheres whose unit cell form a cube. There are three types of cubic lattices, corresponding to three types of cubic close packing: simple cubic (SC), body-centered cubic (BCC), and face-centered cubic (FCC).
