By Michael Hartley. This web page gives you a classic "Guess My Number" magic trick, and some variations on it. For each of these tricks, the magician (or is that mathemagician?) asks the subject to think of a number, then shows him or her some cards. For each card, the subject tells the magician whether their number is written on the card.

Cicada 3301 is a nickname given to an organization that on three occasions has posted a set of puzzles to recruit codebreakers/linguists from the public. The first internet puzzle started on January 4, 2012 and ran for approximately one month. A second round began one year later on January 4, 2013, and a third round following the confirmation of a fresh clue posted on Twitter on January 4, 2014.

### **Cicada 3301 - Wikipedia**

Scientists tracked more than 1,000 29-month-old babies and their television habits and the effects of excess TV were downright startling -- even after researchers accounted for all the other factors that would explain differences in behavior. The more television a child watched as a toddler, the more likely it was that he'd be fat, bullied, bad at math, inactive and prone to misbehavior in the ...
