### **What Is The Conscious Mind**

The origin of the modern concept of consciousness is often attributed to John Locke's Essay Concerning Human Understanding, published in 1690. Locke defined consciousness as "the perception of what passes in a man's own mind". His essay influenced the 18th-century view of consciousness, and his definition appeared in Samuel Johnson's celebrated Dictionary (1755). "

The famed psychoanalyst Sigmund Freud believed that behavior and personality were derived from the constant and unique interaction of conflicting psychological forces that operate at three different levels of awareness: the preconscious, conscious, and unconscious.. He believed that each of these parts of the mind plays an important role in influencing behavior.

The second aspect of your consciousness is your conscious mind - also known as the objective mind. It is that aspect of your mind that is able to reason, setting us apart from the plant and mineral kingdoms. It is your freedom of choice, the seat of your will and the absolute guardian of your subconscious mind.

### **The Incredibly Important Role of Your Conscious Mind**

In psychology, the subconscious is the part of the mind that is not currently in focal awareness. The word subconscious represents an anglicized version of the French subconscient as coined by the psychologist Pierre Janet (1859-1947), who argued that underneath the layers of critical-thought functions of the conscious mind lay a powerful awareness that he called the subconscious mind.

2. Conscious, aware, cognizant refer to an individual sense of recognition of something within or without oneself. Conscious implies to be awake or awakened to an inner realization of a fact, a truth, a condition, etc.: to be conscious of an extreme weariness. Aware lays the emphasis on sense perceptions insofar as they are the object of conscious recognition: He was aware of the odor of tobacco.

Amanda Sharkey has produced a very good paper on robot ethics which reviews recent research and considers the right way forward - it's admirably clear, readable and quite wide-ranging, with a lot of pithy reportage. I found it comforting in one way, as it shows that the arguments have had a rather better airing to date than I had realised.
